

Scrofula, Skin Eruptions.

Scrofula, Eczema, Tetter and similar diseases cannot be cured by local applications of ointments and liniments, for the disease is in the blood, and can only be reached by a blood remedy.

S. S. S. (Swift's Specific) is far ahead of other blood remedies because it does so much more. It promptly reaches and cures the most obstinate and deep-seated diseases which they have no effect upon whatever.

Mr. Thomas N. Tinney, of Corpus Christi, Texas, writes:

"For years I suffered from Scrofula, which seemed to grow worse under the treatment of physicians. At times the dreadful disease would extend to different parts of my body, causing severe eruptions of the skin and untold suffering. The many prescriptions I took did me no good, and the local application of remedies did not seem to reach the trouble at all, for they had no effect whatever. I resorted to almost every patent medicine recommended for the blood, but without result."

"I had almost despaired of ever being rid of this dreadful taint in my blood, when, by the advice of friends, I began to take S. S. S. (Swift's Specific), and before I had finished the second bottle I noticed an improvement. How much money and suffering I could have saved if I had only begun the right remedy!"

This S. S. S. proved to be, for as I continued its use I grew better, and was finally cured completely of a disease which had cursed my life for years, and had withstood the treatment of many so-called blood remedies, as well as of the best physicians. S. S. S. also cured me of a severe case of rheumatism. It is the only real blood remedy on the market."

It is not difficult to be cured of any blood disease, if the right treatment is given. S. S. S. is the only positive cure for Contagious Blood Poison, Scrofula, Cancer, Eczema, Rheumatism, or any other deep-seated blood disease, for it promptly reaches the seat of the trouble. It is the only

blood remedy guaranteed Purely Vegetable, and contains not a particle of potash, mercury or other mineral, which means so much to those who know the disastrous effects of these drugs.

"And the Devil's, Too."

Rowland Hill was always annoyed when there happened any noise to divert the attention of his hearers from what he was saying. On one occasion, some days before his death, he was preaching to one of the largest congregations that ever assembled so near him. In the middle of his discourse he observed a commotion in the gallery. For some time he took no notice of it, but finding it increasing, he paused in his sermon, and looking in the direction in which the confusion prevailed he exclaimed:

"What's the matter there? The devil seems to be among you."

A plain, country-looking man immediately started to his feet, and addressing Hill in reply, said:

"No, sir; it aren't the devil as is doing it; it's a fat lady wot's fainted, and she is a very fat'un, sir! as don't seem likely to come to again in a hurry."

"Oh, that's it, is it?" observed Mr. Hill, drawing his hand across his chin; "then I beg the lady's pardon—and the devil's too."

CATAWBA RIVER.

Flow on majestic river,
With thy resistless tide,
As a litful, restless fever
So thou canst not abide.

Your waters dark and sullen,
Move with a ready sweep,
Bearing all things to the ocean
As you flow so swift and deep.

Like the sea shell's roar we hear thee,
As a far the sound is borne
And it louder grows when near thee,
Its roar, all sounds doth drown

As a requiem it singeth
Of the ages past and gone,
While the recollection bringeth
Scenes with which thy banks were strown.

Oh Catawba! Wondrous river!
Does not memory recall—
To your sparkling, rippling water,
Scenes which doth thy heart appal!

Or perchance the joyous laughter
Of some happy girl or boy,
Maybe it was some fisher—
As he pulled his boat afloat?

Long ages gone the "Red man"
"Pon thy banks with stealthy tread
Sought the doe within her covert
As she hid her timid head.

Many scenes were laid beside thee,
Upon thy sunny banks,
Love and sorrow, sobs and laughter,
Have played thee many pranks.

Still the breeze the vines are swinging,
Wafting sweetness over thee;
Joyous songs the birds are singing
As in long ago you see.

Still the lily-pads are resting
Upon thy bosom deep;
While thy course unceasing
Flows on with steady sweep.

Flow on, thou grand old river,
Whatever may betide,
Forever and forever
All change will be defied.

NO RELIEF IN SIGHT.

Probable Prolongation of the
Tariff Agony as the Senate is
Taking its Time.

Washington, July 22.—Shortly before the senate adjourned today, Senator Allison, in charge of the tariff bill made a strong effort to have a time fixed for the final vote on the tariff conference report. Failing in this, he gave notice that the session to-morrow would be protracted, with a view to securing a vote. It was the first definite movement made thus far toward bringing the debate to a close.

Mr. Allison's proposition was for a vote at 5 o'clock to-morrow, but this was objected to by Mr. Pettus of Alabama. Then he proposed a vote some time before adjournment to-morrow, which was objected to by Mr. Morgan. The suggestion of 1 o'clock met with like objection from Mr. Morgan. The Alabama senator explained his last objection by stating that he thought all debate on the report would be exhausted before to-morrow, so that it was needless to make an agreement in advance. Finding that there was no disposition to reach an agreement, Mr. Allison finally gave notice that hereafter, while the report was pending, the senate would not adjourn at 5 o'clock with a yea and nay vote.

The debate on the report to-day was participated in by Senators Chilton of Texas, Jones of Arkansas and Pettigrew of South Dakota, in opposition, while Mr. Aldrich took the frequent occasion to defend the report against the criticism of these senators.

The credentials of the new senator from Tennessee, Thomas B. Turley, who succeeds the late Senator Harris, were presented by his colleague, Mr. Bate, and the oath of office was administered.

During the discussion of the agricultural schedule Mr. Tillman was drawn into a vehement argument on the benefit of an export bounty on agricultural products. The South Carolina senator declared that the imposition of such a bounty was the most effective

means of destroying the entire protective system, for if the farmer got one drop of blood in his mouth he would want to swallow the whole carcass, and it would end in a scramble overturning the whole system.

It is worthy reiteration that milk heated to as high a temperature as it can be drunk or sipped, above 100 degrees, but not to the boiling point, is of great value as a refreshing stimulant in cases of overexertion, bodily or mental. To most people who like milk it does not taste good hot, but that is a small matter compared with the benefit to be gotten from it. Its action is exceedingly prompt and grateful, and the effects much more lasting than those of any alcoholic drink whatever. It supplies real strength as well as exhilaration, which alcohol never does.—Good House-keeping.

In Europe bulls are made to work, and prove more servicable as well as less dangerous. They are considered expensive by farmers who have but few cows, but if the young bull is trained to work he can furnish tread power and perform much labor that would more than pay for his keep. Idleness begets vices, and the bull is no exception.
